

Client Status Report  
For  
North Coast Railroad Authority  
(NCRA)

September 2017

Prepared by Mike Dannelly  
\*as of October 6, 2017

## Summary

Since 2013, FEC Real Estate Services (FEC), formerly Parallel Infrastructure, has successfully generated over \$136K in revenue for NCRA's Right of Way (ROW) portfolio. FEC is negotiating other prospective opportunities which could potentially generate over \$140K in new income.

The Pacific Gas & Electric (PG&E) management team has tentatively agreed to incorporate 32 undocumented/unlicensed encroachments currently residing in the Right of Way into the existing blanket agreement with NCRA with proper compensation for the crossings. PG&E is waiting on NCRA's approval to proceed with the amendment.

Areas of potential interest are listed below:

- FEC is working with Ocino, Inc. to develop an agreement for Ocino to occupy and utilize a portion of the old Piedmont Lumber facility in Capella (MP119.99). A proposal has been tendered and a review of the desired area is being finalized.
- Recology Inc. has agreed to pay a onetime license fee of \$25,000 for an at grade crossing located in Samoa (MP 300.9). The license agreement has been tendered and is awaiting execution
- Trinity River Timber dba North Fork Lumber Company has submitted application to utilize the northern portion of the Willits Railyard for material laydown and laying in a drainage culvert. The license will produce ~\$18,000/annually (\$1,500/monthly). The license agreement is being reviewed by North Fork Lumber Company & have asked for additional information referenced in the license agreement.
- The Mercer Fraser Company has reviewed the footprint (approximately 1.6 acres) they are using on NCRA's property located in the Dyerville Loop Road Area (MP237.16) for aggregate laydown/storage area and has yet to provide a survey of the use area. Follow up with the company is continuing.
- From previous month - Humboldt Municipal Water District is waiting on a decision on the project grant funding from FEMA. Once funding is approved, actual construction of the facility & execution of the license would begin in late 2018.
